▶ Custom clearance

Networked To Provide Convenience

Years in the logistics sector have helped us grow and build Connections that have lasted and enabled us to be swift in our activities when it comes to clearance of shipments. Having relevant touch-points in multiple locations lets us lead in providing ease in processes Not being able to get your hands on goods through a custom brokerage facility can cause your costs to go up. Therefore, at seanet, everything from preparation to finalizing documents is done under expert supervisions so your shipment passes through smoothly.

We make it look easy.

▶ LCL/FCL

Diversifying Logistical Choices

Whether it be Full Container Load (FCL) or Less Container Load (LCL), seanet maintain the Guarantee to provide world-class expertise, a global Network and local support at every given location. It is This guarantee that enables us in providing good Assistance when it comes to make your choices in Areas of FCL and LCL.

Full Container Load (FCL) occurs as a need for high Volume shipments and repeat shipments. With Experienced experts and years of delivery in the service, our FCL shipments guarantee added security and offers with a diverse array of carrier routing options available. Our efforts are driven to design a carrier routing plan that optimizes your transit time to cost ratio.

On the other hand, when your cargo volume doesn't fill an entire shipping container, freight consolidation for your LCL cargo is the answer. With competitive pricing and convenient sailing schedule, our LCL consolidation services are your cost effective supply chain solution.

We are to home competitive rates, cargo compatibility and cutting-edge networking for your shipments.

► AIR & SEA FREIGHT

Forwarding Your Goods across
Mediums

When you trust seanet, you are trusting over 5 decades of transportation expertise for your shipment. Our specialties have outgrown to provide transfer of shipments through air and sea at your given time and your given budget. Years in the industry have led us to become the pioneers in networking with world-class air services to provide the best capacity, care and cost for your goods and valuables. Be it large volumes, heavy weights, sensitive valuables, our team of experts analyses, derives solutions and get it going in the best possible way

We make it fast, customized and on the go.

► PACKING & CRATING

Safely Packing Quality

A central part of your cargo transportation is safety. At seanet, our offerings include full range packing and/or crating services ensuring that your goods and valuables are safely transported to your destination in given time and good price. Our team comprises of well-trained professionals in the field, handling quick demands of your business with flexibility and quality. Our process involves a detailed evaluation of your product considering factors such as mode of transport, handling, shock and vibration, origin and destination requirements before customize the design and overall packaging ways for your product. So be it any kind, big, small or extremely fragile we can pack your good to safety. With logistics at our core, our dedication lies in providing our customers convenience and end-to-end offerings in all areas of shipment. We specialize in packing of commercial, local and international shipping packaging and crating.

You'll receive it fast with our outstanding courtesy.

► RAIL ROAD TRANSPORTATION

Defining Ease in all ways

We don't want you to run out of options. Our services are broad to offer leading intermodal transportation expertise at competitive rates and seamless quality. Both Rail and Road shipping are making their way as long-term supply chain solutions that have the tendency to provide economic value and door-to-door service. Seanet absolute goodness in networking with rail and road operators ensures to branch out in supporting facilitations such as customs clearing, terminal handling, inland distribution, security and high visibility throughout the shipment. Be it the highly flexible, customized over-the-road trucking solutions or demanded Rail Freight Services, we have access to the equipment and capacity you need. Our professionals match your freight with the right vehicle and the right route, with the ability to restructure resources if conditions change. With this service, we are offering businesses cost-effective solutions to meet set time frames as per consumer needs and drive productivity. We drive the process from end-to-end.

► WAREHOUSING

Storing to Deliver Convenience

From Warehouse designing to distribution design and supply chain modelling, our efforts are to test alternate supply chain decisions, evaluate performance and in turn bring about a fine-tune layout to reduce costs associated with transits and increase space utilization and productivity. Therefore, our expansive warehouses have been developed to suit flexible capacity to receive and manage your goods. Developed through and by modern technology, our warehouses are a service to providing customized storage, preliminary preparation, separation and packaging of goods, labelling and cross docking specialties. With that our facilitation maintains to provide secure and upgraded services for warehousing whereby there is extra care taken towards provision of security and maintenance of basics like supply of 24/7 electricity and quality control at all levels.

Delivering quality across the Value Chain.

SPECIALIZED VERTICALS

To Better Suiting Your Needs

Innovated, developed and constantly driven towards growth, at seanet we have expanded to further specialize our services in particular needs for our customers. Just like the overwhelming expansion of technology and boom in global networking, effective supply chain and logistics have become the need of time. Honored to be catering to a diverse market, our services are unique due to our quality, reliability and unmatched range of offerings that are customized to individual customer needs. Under the umbrella of Cargolikers, Seanet Shipping and Logistics, Air Cargo Services and International Freight Aviation

PROJECT CARGO

Dealing with even the most complicated logistics, you are not to worry. Our expert facilitation involves that we assist you and providing specialized cargo for various projects ranging in big industries. Developed to cater to oversized and heavy lift cargo, our tools, equipment and processes suit all needs..

EXPRESS SHIPMENT

Express service have speed in mind. With delivery the next possible working day, this is the choice if you need to get your shipment where it needs to be fast. With a small additional surcharge you can make it door to door and as per the requirement of your time. Value in the respected service has led us to be the most dependable shipment partner.

AIRCRAFT ON-GROUND

Maintain a timely and quality assured delivery. AOG services are meant for taking prompt actions When it comes to organization, loading and Chartering of your cargo. Networked with the best Aircrafts, the aim is to deliver a flexible and Economical service that stands the test of time.

AIR & VESSEL CHARTERING

Offering air cargo charter brokerage services around the world, our size, infrastructure and experience in air freight gives you a competitive edge. We also give the best cost choices through seas. Using our extensive network, extensive expertise and flexibility of good sizes, we cater to all sorts of chartering services.

COLD LOGISTICS CHAIN

Temperature sensitive products demand modern technology when it comes to their supply. Proper cooling systems and cargo facilitation that maintains an optimal level of cool environment. Cargo linkers experience has accustomed to become a cost-effective and highly flexible form of cold chain logistics solution provider. Our services include refrigerated cargo provision to deal in with sensitive, chilled or perishable goods. It is therefore we exceed expectations and make sure that every consignment reaches its destination safely.

SHIPMENT DOCUMENTS

Regulations and legalities are a priority. For smoother services and avoiding hindrances, our teams make sure that you are prepped and assisted with all necessary documentation. Our electronic POD (proof of delivery) helps customers to access all shipment documents online. Electronic data is completed by a signature and the name of the consignee

PERISHABLE GOODS HANDLING

If your good is meant to go bad at a certain temperature then cold chain solutions is what your business needs. Specialized in shipment of temperature sensitive goods, we are providing some of the best controlled settings via reefer containers maintaining that safety is the priority.

DANGEROUS GOODS

Unsure of how safe your dangerous goods are while shipment? Well, our experience has been molded to handle the most sensitive goods bearing that all safety measures and regulations are followed as per particular air and sea ports. Further, our equipment and transportation ways keep the goods secure

TRACKING & TRACING

With visibility at our cores, our Online tracking and tracing tool provides customers with up-to-date information about delivery status and complete shipment history. You won't have to fetch on your shipment details as we are open to provide any details, anytime.

E COMMERCE HANDLING

Whether you are a start-up business, an established Online merchant, wholesaler or a leading multichannel retailer, our diverse range of parcel delivery services from carrier partners combined with order management system integrations has helped us to become one of the leads in streamlining your e-commerce supply chain.

COMMISSIONING

Offering advantages beyond the ERP (Enterprise Resource Planning) systems. With our innate drive to stay connected and giving you the guarantee of safe shipment, we make sure that you are up on track with us and that supplier transport applications can be monitored by the customers.

MILITARY LOGISTICS

With years of existence in the market and a built reputation in shipment and supply chain management facilities have led us to be the leading choice for commercial practices. Therefore, we are the ideal choice when it comes to logistics of critical military supplies and equipment in Pakistan.

VALUABLE LOGISTICS

Your valuable goods can be the safest with our best and most reliable armored transportation facilities. Modern, secure vehicles and the edge of expertise from ex-military personnel have made us the top of the mind choice for speedy handing, transparency, cost efficiency, and quality of delivery for valuable goods

INBOUND & OUTBOUND LOGISTICS

Flexibility, quality, and good cost all at once. Our outbound services are best at ensuring that the delivery of finished products is done in line with time gaining us the reliability that we stand for today. Our service costs are transparent and calculable. Our country-wide leadership in Inbound logistics means you can depend on us to facilitate the movements of materials in and delivered to manufacturing or assembly plants. With service to our customers, we give them a change of their manufacturing timeline and make their value chain hassle-free

PROCUREMENT LOGISTICS

Expanding your business globally offers great advantages and opportunities. Yet, to remain competitive, functions like supply chain management must become more strategic than operational. Therefore, depending on the agreed intercoms, our services give our customers a range of control that covers the whole process from delivery of products to receipt, acceptance of goods, product testing, initial warehousing, internal transporting, controlling, and monitoring.

AFFILIATIONS

With years of operating in the respective sector, cargo linkers has been accredited as being one of the leading and reputed service providers in Logistics. We have been trusted by some of the most significant trade and commerce networks locally and internationally.

The International Air Transport Association (IATA) is one of the pioneers in a trade association for World Airlines. We take pride in being endorsed by the network as one of the most participating companies in the air transport industry as delivering constant quality and maintaining alliances with key industry stakeholders.

Air Cargo Agents Association of Pakistan (ACAAP) is an Association of IATA (International Air Transport Association) approved agents Members of ACAAP are approved by IATA and work within the parameters prescribed by IATA to make Air Freight convenient and cost-effective for just-in-time deliveries by developing the infrastructure and streamlining various procedures, thus, enabling international trade to flourish.

Federation of Pakistan Chambers of Commerce & Industry (FPCCI) Since its inception in 1950, the FPCCI as an institution that has been constantly working to bridge the gaps between the private and government sectors, has advocated helpful advice and solid assistance to promote exports, encourage foreign investment and stimulate economic activity. With global networking at our core, it is indeed an honor to have maintained our relationships with this crucial network

FIATA, a non-governmental organization, represents today an industry covering approximately 40,000 forwarding and logistics firms. It is recognized as representing the freight forwarding industry by many other governmental organizations, governmental authorities, private international organizations in the field of transport such as the International Chamber of Commerce (ICC), the International Air Transport Association (IATA), etc.

The Pakistan International Freight Forwarders Association (PIFFA) has more than 500 Freight Forwarding companies as members and aims to provide effective representation and support for the Pakistan freight services industry to observe the highest standards of professional competence. To maintain the highest standards, Cargo Linkers remain to be connected with this prestigious Association.

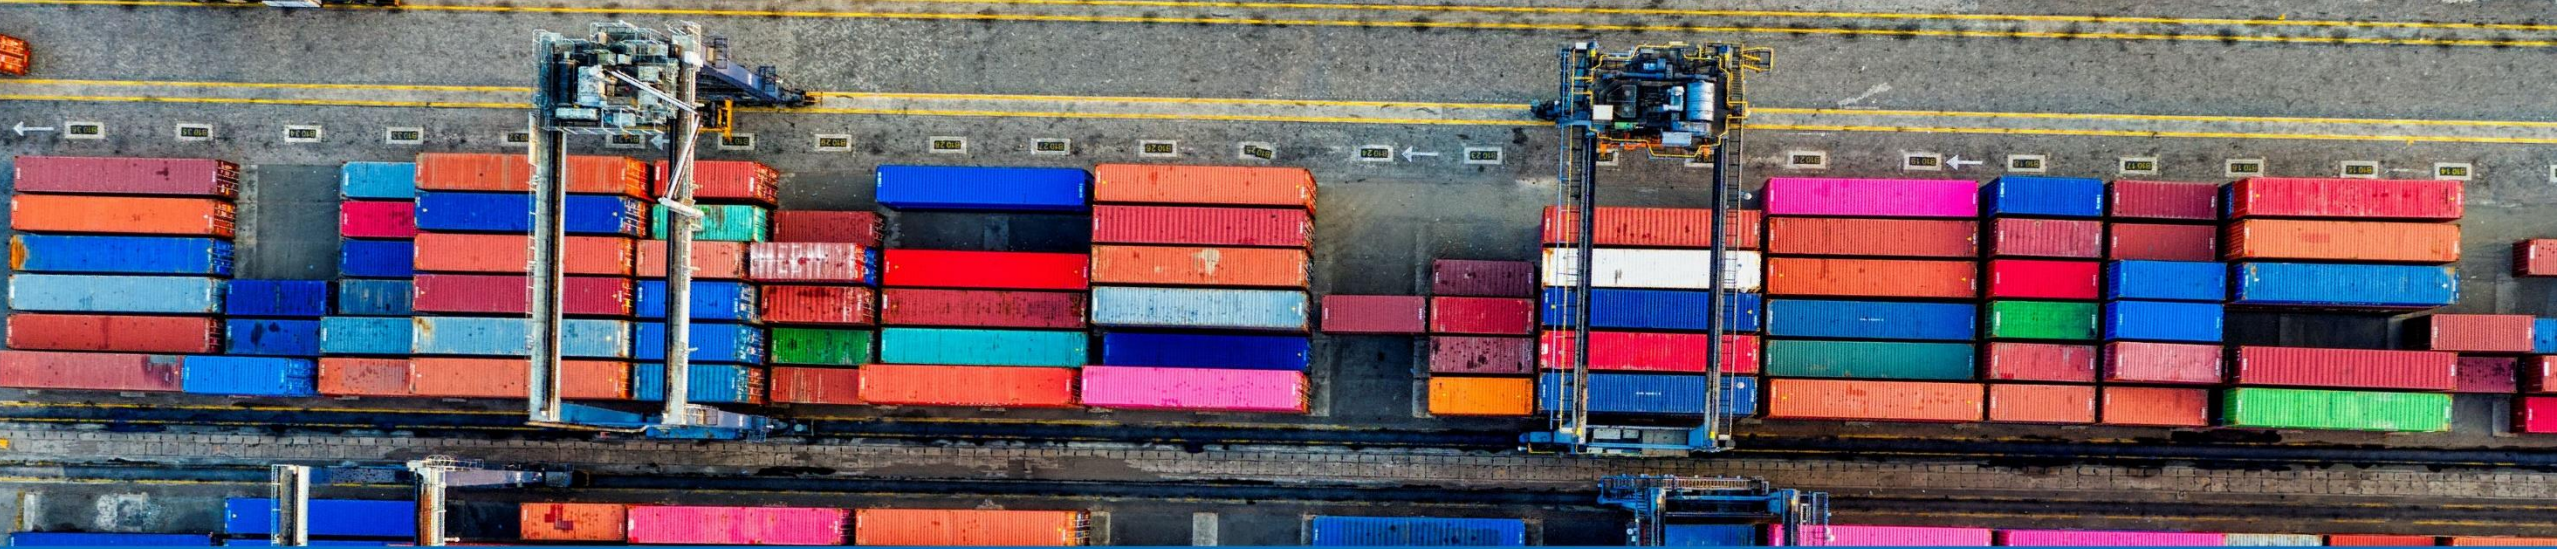

The Karachi Chamber of Commerce & Industry (KCCI) enjoys the singular distinction of being the premier Chamber of Pakistan, representing the mainstream of economic activities by its location in the industrial and commercial hub of the country. Karachi Chamber of Commerce & Industry has currently over 22,000 registered members both industrialists and traders. Therefore, the endorsement stands significant to our net. Work at Cargo Linkers.

All Pakistan Customs Agent Association

With Custom services as an important aspect of our processes, Cargo linkers is building towards making relationships within the sector that allow smoother transfer of our services and hence delivering efficiency in all steps for our customers.
